Dear Parishioner,

With winter weather once more upon us, the Parish Council recently carried out a review of the provision of grit bins around the village and took action to replenish reserves of available salt grit where necessary.

With sub-zero temperatures forecast for this week, I am therefore writing to encourage you to make use of the salt grit in the bins yourselves where you encounter roads and highway footpaths that have become, or are likely to become, icy. The resource is there for the usage and benefit of everybody. Please do not however use the salt grit for private drives etc as the County Council have made clear that this would be an inappropriate use of a publicly funded provision.

Stay warm everybody!

Kind regards,

Peter Bambury
Clerk to Boylestone Parish Council
